Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Obvious-type Double Patenting Rejections

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 13-16 and 20-25 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over

claims 1-13 of U.S. Patent No. 4,886,062, and

claims 1-9 of U.S. Patent No. 6,656,219.

Although the conflicting claims are not identical, they are not patentably distinct from each other because one of ordinary skill in the art would have found it obvious to have claimed the invention set forth in the patented claims of '062 and '219 in the manner of the present claims. More particularly, the inventions set forth in the patented claims of '062 and '219 meet all the limitations of claims 13-16 and 20-25, merely finding different language to claim the same invention is a mere matter of claim drafting and obvious to the ordinarily skilled artisan. The manner in which applicant intends for the claimed device to be used (e.g. claims 20-25) fails to impose any objectively

ascertainable structural distinctions from the device previously patented in '062 and '219.

Claims 13-33 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over

claims 1-12 of U.S. Patent No. 5,133,732,

claims 1-42 of U.S. Patent No. 5,653,727, and

claims 1-12 of U.S. Patent No. 6,113,621.

Although the conflicting claims are not identical, they are not patentably distinct from each other because one of ordinary skill in the art would have found it obvious to have claimed the invention set forth in the patented claims '732, '727 and '621 in the manner of the present claims. More particularly, the invention set forth in the patented claims of '732, '727 and '621 meets all the limitations of claims 13-33, merely finding different language to claim the same invention is a mere matter of claim drafting and obvious to the ordinarily skilled artisan. The manner in which applicant intends for the claimed device to be used (e.g. claims 20-25) fails to impose any objectively ascertainable structural distinctions from the device previously patented in '732, '727 and '621.

Action Made Final

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3732

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
